MODERN MODULAR MOTION

250 PRESETS FOR BAZILLE

# About Strobos

Thank you for purchasing the Strobos soundset for Bazille. We hope you will enjoy these patches and put them to good use in your music!

While *The Bazille Cookbook* shows Bazille's sheer versatility, *Strobos* demonstrates its talent for creating complex movement. We asked six sound designers to contribute as many different flavours of 'motion' as possible, and the result was this wonderfully varied soundset. The library includes bass riffs, layered melodies, swirling effects, percussion loops (with even a classic analogue drum machine clone or two).

See below for a list of all patches. Play, tweak, record, slice and dice as you see fit!

## The Sound Designers

A-Grade-Audio

Peanut Butter & Pickles (Chris Hammill)

Bryan Lake

Jan Morgenstern

Howard Scarr

Viktor Weimer

## Playing the Patches

Strobos includes MIDI performance control via the modulation wheel (MIDI CC 01), aftertouch, Control A (user defined MIDI CC, pitchbend) and velocity. Please read Bazille's PRESET INFO for details about the usage of these controls for each preset.

If you haven't done so already, check out this video (by Seb) demonstrating live tweaks to STROBOS patches: <https://youtu.be/Ag9JKvhK9h8>

# 1 Percussion

Adiabatics	Mr Gardyloo's Time Emporium
Alablaster 1 - tight	Noise Beat
Alablaster 2 - distort	Pin Cushion
Band in a Bend	Plastic Fountain
